

Decant Bus Travel

Why are the buses to the Sha Tin campuses more than I currently pay?

The bus situation is obviously complex with both challenges and improvements across the school community. For some students they will obviously need to travel further resulting in a higher bus fee.

ESF, the PTA and the school have spent time with Kwoon Chung and negotiated between a 3 and 10% reduction for most of the routes. This is dependent on the pick up location and the number of students who get the bus from that location. We will now collate parent responses and pass them onto ESF.

Can a bus pick up my child closest to our address?

The pick-up locations are determined by Kwoon Chung based on the addresses of our current student population. If Kwoon Chung feel there is a need to change the pick-up points they will change them accordingly and respond.

Will there still be an activities bus?

Thank you for your response regarding the cost of the bus information. We will still run an activities bus from both sites in Sha Tin. However, we will be adding a third stop at Elements in TST. The numbers and departure times will remain the same as on Borrett Road where these are worked out based on need.
