

## **IBCP Creative Media**

IBCP Creative Media is aimed at the aspiring mediamaker looking to advance to the professional level. Students will become experts in a variety of media forms, including game design, photography, and videography. We industry standard programs in the Adobe Suite including AfterEffects and coding and hone our skills using the latest equipment such as Da Vinci Black Magic Cameras. At the end of the two year course students will have a pre-professional reel of media work with multiple topics, typically 3 to 4 per 2 year cycles. Our students have been accepted to some of the top universities in media in the UK and in Hong Kong.

The program is also a great way for any student, but especially aspiring media and business students, to hone and demonstrate their teamwork and leadership skills and to produce a highly visible body of work useful for college applications and potential employers.

The Units of Study are:

Photography

Game Design

Video Editing

Music Video

Communications

Animation/Motion Graphics
